OBJECTIVE

To use and build upon the knowledge I've gained from school projects and personal projects.

EDUCATION

A.S. in System and Server Administration | Diablo Valley College

2011 – 2017

Took CISCO and Microsoft sponsored classes.

Computer Science, B.S. | CSU Eastbay

2017 – 2020

EXPERIENCE

Website Development | Self Employed

2020

Personal React.js Portfolio | [Github](#)

- React.js
- Netlify
- Gatsbyjs
- yarn

Internship | The Vonberg Group

12/16 – 07/17

Interned as a Jr. Systems Administrator.

- Installed AD DS, WSUS, WDS/MDT
- PowerShell scripting for automating deployment
- Configured CISCO switches
- Configured HPE switches

SKILLS

- Object Oriented Programming Experience (6 years)
- Python Experience (3 years)
- JavaScript Experience (2 years)
- C++ Experience (3 years)
- Node.js, React.js, Vue.js Experience (1 year)
- Linux Experience; Ubuntu, Debian, Arch. (7 years)

ACTIVITIES

Personal programming projects range from a RESTful file host using Django and PostgreSQL, to simple teamspeak3 and discord bots, all written with Python and JavaScript. Current project is a Node.js and React Native chat client/server build upon a school group project, MIT Licensed.
